

## Will Rogers Remarks:

ANN ARBOR (Mich.) April 2.—[To the Editor of The Times:] You hear lots of talk about the campaign this year being awful cheap, and maybe on the level, but I want to tell you that I would hate to offer \$100,000 to either side. I'll bet it wouldn't have to be in bonds. They would grab at a preliminary vote. Or even an anonymous check. So don't be afraid to contribute. Both sides are doing business at the old stands.

Yours,  
COL. ROGERS,  
Of Kentucky, Sub.

## Postal Cut Approved

Vote Unanimous for Revision

Unanimous Support Given Legislation to Restore 1921 Mail Rates

Senate Now Will Pass Upon Measure, Sixth of Kind in Nation's History

WASHINGTON, April 2. (P)—A downward revision of postal rates, calling for restoration of the 1921 charges, was approved today by the House in unanimously passing the "Postal Revision Act." The measure now goes to the Senate.

A controversial question for several years, the passage of the measure marks the first House approval of a reduction of postal rates. The measure is the sixth general postal-rate revision in the country's history.

FERRY POSTCARDS

The bill would establish a 1-cent postcard and would lower rates on second and third-class mail matter, including newspaper zone mailing charges and on parcel-post matter.

Newspaper publishers who before the committee argued that 1921 basis is not sufficient and sought return to the 1920 level.

The Postoffice Committee estimated it would cause a loss in revenue to the postoffice department of \$12,000,000 during the fiscal year 1929. The measure had support of the Postoffice Department and was designed to stimulate the postal business, the committee said, by equalizing the rates.

A new postal service, 2-cent business-reply cards and envelopes, would be established by the measure.

NEWSPAPER RATES

On advertising portions of newspapers, a reduction would be provided with a lowering on zones one and two, from 2 cents a pound to 1 3/4 cents a pound; zone three, from 3 to 2 1/4 cents; zone four, 4 to 3 1/4 cents; zone five, 5 to 4 1/4 cents; zone six, 6 to 5 1/4 cents; zone seven, 7 to 6 1/4 cents; zone eight, 8 to 7 1/4 cents.

Fourth-class parcel-post rates would be lowered from 3 cents for each two ounces to 1 cent. In bulk parcel rates a new third-class service for mailing of lots of 100 pieces or twenty pounds would be inaugurated, with a rate of 8 cents a pound with minimum of 1 cent a piece for books, catalogues, etc. Day cartage was a dollar for 13 cents per pound with a 1-cent-a-piece minimum. On fourth-class mail matter, including newspapers, and printed material, a general lowering of 1 cent on the first pound on all the zone rates would be put in effect.

## HUGE SEAS STOP LITTLE DUTCH BOAT

Small Craft Attempting to Cross Atlantic Ocean Forced Into Port

MARGATE (Eng.) April 2. (P)—The little Dutch lifeboat Schuttevaer, which left Margate a week ago for a trans-Atlantic voyage, with New York as her objective, was back in Margate tonight. The crew, including Capt. Schuttevaer, the inventor and first helmsman, say they demonstrated their contention that the boat is unsinkable, but they were somewhat disillusioned as to traveling power.

Tremendous seas and a fierce gale mauled the craft when she sprung into the English Channel. The boat managed to get past Dover and Folkestone, but off Eastbourne was forced to stop anchor. The rope soon snapped and so, battered down tight, the crew rattled around inside the craft while huge billows and a western wind tossed them back around Foreland and into the North Sea again.

The lifeboat now is undergoing small repairs and soon will be ready to try for Plymouth once more.

"We are going to cross the Atlantic," said Skipper Schuttevaer, insisting that no sea can sink the bobbing boat. "We are going to prove to the world that we can face wind and sea that no open boat can sail against."

## Radio to Carry Coolidge Plea

WASHINGTON, April 2. (P)—A message on forestry direct from the White House will be broadcast from 8 to 8:30 p.m., eastern standard time, Monday, the 23rd inst., by President Coolidge, who, on February 24, last, proclaimed the period from the 22nd to the 28th inst. as eighth annual forestry week.

KEYSTONE (W. Va.) April 2. (P)—An explosion in the No. 2 mine of the Keystone Coal and Coke Company today took a toll of eight lives, the bodies of six victims being found huddled together tonight in the far recesses of the workings. Two bodies had previously been recovered.

## Eight Men Die in Mine Blast

WASHINGTON, April 2. (P)—A message on forestry direct from the White House will be broadcast from 8 to 8:30 p.m., eastern standard time, Monday, the 23rd inst., by President Coolidge, who, on February 24, last, proclaimed the period from the 22nd to the 28th inst. as eighth annual forestry week.

KEYSTONE (W. Va.) April 2. (P)—An explosion in the No. 2 mine of the Keystone Coal and Coke Company today took a toll of eight lives, the bodies of six victims being found huddled together tonight in the far recesses of the workings. Two bodies had previously been recovered.

## Michigan's Vote Light

But State's Safe for Hoover

Primary Shows Choice of Secretary and Gov. Smith as Party Leaders

Balloting Also Indicates Vast G.O.P. Majority; Write-in Casual

DETROIT (Mich.) April 2. (Exclusive)—While the Presidential primary election passed uneventfully in Detroit and generally so over the State, being featured only by partisan excitement over municipal contests in Hamtramck, Highland Park, Redford, Pontiac and Grand Rapids, the vote demonstrated again the overwhelming Republican sentiment of the State.

The scattering returns that were reported early from both city and out-State precincts showed that Herbert C. Hoover will have a commanding popularity over the Democratic preference, Alfred E. Smith, governor of New York. This was uniformly true, irrespective of the section of the State from which the returns came.

DETROIT VOTE

Detroit's complete count, 606 precincts out of 704 in Wayne county, gave Hoover 26,644, Smith 9,948.

Fourteen precincts in Macomb county gave Hoover 11,786; Smith, 274; Walsh, 28, and Loveland 32. Five precincts in Livingston, Hoover, 535; Smith, 208. Four precincts in Ingham, Hoover, 341; Smith, 94. Ten precincts in the county, Hoover, 1,097; Smith, 724. Fifteen precincts in Huron, Hoover, 1,326; Smith, 263.

There were scattering votes for Coolidge, David Hughes, Roosevelt and others, along with Lowden and Walsh being written in, but in only a few places were there enough of such votes to show a tabulation of them in the early returns.

It was roughly estimated by Detroit officials that not more than 60,000 or less than 70,000 of the total number of registered voters bothered to go to the various polling places.

OTHERS REMEMBERED

However, according to election officials, it was expected there would be a writing-in of choice in opposition to both Hoover and Smith, but in numerical proportions that would be negligible.

Hoover names mentioned were those of Frank O. Lowden of Illinois, Charles Evans Hughes and Charles D. Sawyer. There was a slender effort in behalf of Senator Walsh of Montana.

HOOPER ONLY ONE TO FILE IN NEW JERSEY

TRENTON (N. J.) April 2. (P)—The make-up of the Republican and Democratic tickets for delegates to the national convention was completed tonight, so far as the State party organizations were concerned.

Today was the last day for candidates to file their nominating papers.

Secretary of Commerce Hoover is the only candidate who has filed for the Presidential preference primary in either party. While virtually all of the Republican candidates are pledged to Hoover, several are pledged to support Frank O. Lowden, Vice-President Dawes and United States Senator Edge, none of whom has filed for the preferential primary.

## Actress Passes on Eve of Play

on Eve of Play

NEW YORK, April 2. (P)—Miss Georgia O'Kamey, stage actress, died suddenly today in New Haven, Ct., a few hours before she was to appear in the leading role of the opening of a new play, "Nine Girls," the Shubert Theatre Corporation announced tonight.

Miss O'Kamey apparently was in good health when she went to New Haven with the company early today. After arriving there she complained of feeling ill and was excused from rehearsal. She went to her hotel, where she died a few hours later.

British Woman Flyer in Egypt

KHARTUM (Anglo Egyptian Sudan) April 2. (P)—Lady Bailey, now on a solo flight from London to Cape Town, has arrived here.

## Another car?

I should think it rather expensive—owning two—though it must be much more convenient. I often wish I had another car myself.

"Why, you'd really save in the end. Big car—small car—each to its purpose, you see. And if you'll do as I did—buy a used car through Times Want Ads—I'm sure you'll get a satisfactory car."

## Radio to Carry Coolidge Plea

WASHINGTON, April 2. (P)—A message on forestry direct from the White House will be broadcast from 8 to 8:30 p.m., eastern standard time, Monday, the 23rd inst., by President Coolidge, who, on February 24, last, proclaimed the period from the 22nd to the 28th inst. as eighth annual forestry week.

KEYSTONE (W. Va.) April 2. (P)—An explosion in the No. 2 mine of the Keystone Coal and Coke Company today took a toll of eight lives, the bodies of six victims being found huddled together tonight in the far recesses of the workings. Two bodies had previously been recovered.

## The Sphinx Has Found Her Voice at Last!

## Rolph Says He'll Cast Smith Vote

San Francisco's Mayor and Former Judge to Quit G.O.P. at Primaries

NEW YORK, April 2. (P)—Mayor James Rolph of San Francisco, and former Judge Mathew Sullivan, while at the City Hall here today announced they will both vote for Al Smith for President at the coming primaries in California. Sullivan said they had changed their registration from Republican to Democratic to avail themselves of the right to vote for Smith and many Republicans did the same.

"I am heart and soul for Smith," said Sullivan. "The majority of the California Democrats will be for him and the vote for Walsh and Reed will be negligible. San Francisco's best men are fighting for Smith."

"I can't say much about Los Angeles, which is full of misadventurers, but I hear the Republicans there are changing to Democrats and think the labor element will favor Smith."

"Northern California will go strong for Smith, but the South is not so certain. The Klan, though opposed to Smith will not vote for Reed."

Mayor Rolph had no doubt of a Smith victory, expressing confidence in the leadership of former Mayor James D. Phelan in the campaign for Smith delegates.

## Canton Police in Raid on Reds

Execute 230

CANTON (China) April 2. (P)—Police today terminated a series of raids on Communist strongholds with the execution of 230 persons including eight women. Twenty-five of the executed were Communists, the rest were alleged to be sympathizers. Large quantities of Communist literature, grenades, arms and ammunition were confiscated. Twenty-five thousand red neckties, similar to those worn by the Communists in the December uprising, also were seized.

## Parisian Grooms Mystery Plane

PARIS, April 2. (P)—Bert. De Trost, French pilot who was one of Col. Lindbergh's closest friends while the American aviator was in Paris last year, is grooming his "mystery plane" which is scheduled to be the first this year to attempt a Paris-to-New York flight.

The sergeant made a flight from Villacoublay to Le Bourget today, remaining at the famous aviation ground for five hours and then returning to his base.

De Trost's plane is an exact copy of Col. Lindbergh's famous Spirit of St. Louis, having the same measurements and motor. He expects to take off early this month.

## Jolson Appears With New Nose

CHICAGO, April 2. (P)—Al Jolson has taken his nose to the doctor for beautification. The comedian appeared last night at the theater where he is playing with an improved prosthesis provided by a Chicago specialist.

During a sparring match with Jack Dempsey ten years ago Jolson forgot to dodge. A bruise left a black spot which now has been removed.

## Four British Flyers Killed in Crashes

LONDON, April 2. (P)—Fatalities for 1928 in the Royal Air Force were increased to thirteen today when four flyers were killed in two crashes. A flying officer and an aircraftman died in a crash at Colchester, while a similar fate met two officers in the wreck of a bomber plane in Iraq.

## Lindbergh Fools 'Em

### Finally Lands in Santa Barbara

San Diego and Tucson Both Left Waiting With Faces Turned Toward Sky

Hero Silent on His Reasons for Making Journey to Channel City

SANTA BARBARA, April 2. (Exclusive)—Col. Charles A. Lindbergh, America's flying hero, terminated a surprise flight here today and immediately went into seclusion at the home of friends. He landed here at 5:30 p.m. after all interest in him centered at San Diego, where it was previously stated he would make his Pacific Coast landing.

The Flying Colonel made a ticklish landing, coming down on a small clearing in the redwood forest owned by Marie Ovington. The feat has never been performed before and previously has been prohibited because of the great danger to pilots unfamiliar with the field.

GOES TO KNIGHT HOME

The landing was pronounced perfect, however, and at once Col. Lindbergh and his guests in the airplane were hustled into an automobile by Ovington and taken to the Montecito home of Mrs. Harry F. Knight, who was recently divorced from the father of Harold G. Lindbergh, one of Lindbergh's passengers today.

Col. Lindbergh's arrival was not anticipated in Santa Barbara for several days, at least until after he had visited San Diego and been presented with a plane by the Ryan Aircraft Company, builders of the famous Spirit of St. Louis.

The Flying Colonel is accompanied by Mr. Knight, Harold M. Bixby, president of the St. Louis Chamber of Commerce, and William B. Robertson, president of the Curtiss-Robertson Manufacturing Company.

During his stay here, Col. Lindbergh will visit Harry F. Guggenheim, who is visiting here and who is president of the Guggenheim Foundation for the Promotion of Aeronautics, under the auspices of which Lindbergh made his nationwide tour last fall.

REUNION PUBLIC

His decision not to stay at the Montecito with Mr. Guggenheim for several days, at least until after he had visited San Diego and been presented with a plane by the Ryan Aircraft Company, builders of the famous Spirit of St. Louis.

San Diego was not the only city disappointed in the failure to see Lindbergh today, according to dispatches. When the party left at 11:30 a.m. Col. Lindbergh was expected to refuel the plane at Tucson. Several hundred persons gathered at a field there but were unsuccessful.

At Phoenix, however, the Lindbergh plane suddenly swooped to the Municipal Airport, dispatches state, and he had refueled and was away again at 12:45 p.m. Crowds gathered in a Phoenix street when it was erroneously reported that the flyer and his friends were in a near-by cafe but were dispersed by police.

At San Diego the plans which it is to be presented to Col. Lindbergh was wheeled onto the field with every indication that the hero was about to arrive on schedule—at 9 p.m. Crowds gathered there, too, but as the hours wore on without his arrival the field was deserted save for attaches and newspaper men.

## Copyright Bill Given Approval

WASHINGTON, April 2. (P)—The Vestal bill to permit book and motion-picture copyrights to be sold or protected separately was approved today by the House Patent Committee.

## Terror Rules in Smyrna

New Earthquakes Again Drive Residents From City; Death List Mounts to Forty

CONSTANTINOPLE, April 2. (P)—Another series of earthquakes shocks struck the historic city of Smyrna this morning, increasing the terror of the population which was barely recovering from an earthquake Saturday which caused heavy loss of life.

The first shock today, a slight one, was felt at 8 a.m. and this was followed by a succession of eight shocks which sent the boldest, who had returned to their houses, fleeing to the hills again.

The appearance of geyers in the Gulf of Smyrna added to terrifying phenomena which had marked the preceding quake and spread further panic among the population, which is camping in the fields and hills.

FORTY NOW DEAD

Latest reports placed the dead at forty and the injured at 136. A total of 1970 buildings have been destroyed and the damage is estimated at \$2,000,000.

Official accounts of Saturday's quake said that at Smyrna twenty-nine houses and ten shops were demolished and 193 houses, two mosques, eighty-eight shops, two schools, five factories, two motion-picture theaters, a hospital and a clock tower were damaged.

At Karshigayra sixteen houses were destroyed and 100 damaged. There were several victims at Torbal, where every house was in ruins. A thousand homeless peasants crouched among the debris. According to Moslem custom they buried their dead immediately. Then they turned their faces to Mecca.

NEW AND MORE VIOLENT QUAKES FORECAST

PAENZA (Italy) April 2. (P)—New and extremely violent earthquakes are forecast.

(Continued on Page 3, Column 2)

# THE MAY COMPANY

Broadway, 3th & Hill Sts.

## EASTER FASHIONS FOR THE YOUNGER GENERATION

The Youngest Set May be  
The Smartest Set This Easter-tide!  
No School! Plenty of Time to Shop!

Whether it's bonnets or booties you're seeking, or a whole Easter Outfit of the Debutante and the Dapper Young Man—there's no better place than in The May Company shops. Everything young sons and daughters need,—everything with a cachet of chic and quality, and in thoroughly good taste.

Girls' & Junior  
Shop—3rd floor  
Boys' Store—  
2nd floor.

### Black Satin and Tony Sarg Prints

... combine to make the Littlest Lady a favorite of fashion. Yellow silk, printed with Tony Sarg's circus, for coat lining, diminutive frock and satin hat lining. 2 to 6 years. Sketched—\$37.50.

### Sons' Suits for Easter

A perfectly natural preference leads here for the May Company Boys' Store. We've such a sympathetic understanding of each school age—its needs and preferences.

### Wash Blouses & English Shorts

Light and broadcloth blouses—English cut shorts of wool jersey or cashmere. 2½ to 8 yrs. \$4.95 to \$5.50.

### May Junior's Man Tailored Suits

Full coat linings, particular tailoring, better grade buttons, etc. Two knickers or one pair knickers and one pair golf knickers. 6 to 14. \$15.

### May Prep Suits are Four-Piece

Extra fine wool fabric. English 2 and 3-button-sack coats. Vest and two collared cut trousers. 12 to 20 years. \$22.50.

### Georgette Under Scaloped Tulle

... for Miss 10-to-12's Easter. Tiny rosettes hide in the scallops of the skirt. And to show the frock's French lineage—a bow of velvet is caught at neck back, hanging to the hem. Sketched—\$19.50.

### Dress of Silk with Georgette Coat

... Debonair! Flat crepe dress with pleated skirt. Tucked coat of georgette that may be worn with other frocks. Other coats and dresses that may be "assembled." Coat \$19. White or pastel frock. \$15.

### Same Print in Chiffon and Crepe

... only Paris would have thought to carry the same print and color in chiffon dress and crepe coat. Chic! Sophisticated! Fine pleated skirt with Chanel bow neck. Scarf collar coat. \$49.50.

## CHICAGO BOMB SUSPECT HELD

Alcohol Runner Captured as Owner of Dynamite

May Be Connected Also With "Diamond Joe" Killing

Caffey Shooting Case Taken Over by Government

CHICAGO, April 2. (Exclusive)—Lorenzo Juliano, known as the leader of Southwest Cook county alcohol runners, in whose home Federal agents recently found eleven sticks of dynamite, was captured this evening by Federal investigators.

Juliano will be questioned, it was learned, about his whereabouts on the night the homes of United States Senator Deneen and Judge Swanson were bombed. Federal authorities express the hope of solving both outrages and also declare they will seek from Juliano information about the murder of Joseph (Diamond Joe) Esposito, Italian political leader of the West Side. Esposito long had been a supporter of Senator Deneen. Judge Swanson is a candidate for State's Attorney on the Deneen ticket, opposing State's Attorney Crowe.

JULIANO AUTO IDENTIFIED The shooting of William Beatty, 34, was identified as similar to the one used by the bomber in his attack on Judge Swanson. The judge came within an eyelash of being assassinated, and he and other witnesses were able to get a good look at the bomber's vehicle.

Arthur Forhan, former undercover prohibition agent at Indianapolis, was arrested with Juliano. Both men were indicted two months ago in Indianapolis, charged with extensive transportation of intoxicants between Chicago and Indianapolis, Cincinnati and Cleveland.

The Juliano arrest temporarily took the spotlight from an imbroglio between Federal forces and the Chicago police as the result of the shooting of William Beatty, Municipal Court bailiff, by Byron Caffey, South Carolina prohibition agent detailed here from Washington as a member of a special squad of government agents to clean up Chicago's bootlegging situation. Beatty was shot by Caffey during a raid on a South Side saloon last week.

The threatened clash arose over the raid. Caffey says he shot Beatty when the latter appeared with a gun during the booze squad's raid. Beatty says he was shot while fleeing from the raiders whom he believed to be robbers. However, the bullet struck his watch and was deflected. The Federal grand jury indicted Beatty for hampering the raiders and the police retaliated by getting out a warrant for Caffey.

### NEW TURN IN CASE TAKEN

But while city detectives stood just outside the Federal Building waiting for Caffey to come out of the United States District Attorney's office, Federal Judge Wilkerson signed a writ of habeas corpus to transfer the case of Caffey from the State of Illinois to Federal courts. Judge Wilkerson will rule tomorrow morning whether the government is entitled to have the Federal instead of the State court decide whether the agent committed a crime against the peace and dignity of the State of Illinois. State Prosecutors declare the government attorneys went off half cocked in their eagerness to protect their agent for a crime against the State, and State prosecutors appeared before Federal Judge Wilkerson and asked that he quash the extraordinary writ he had issued. A writ of habeas corpus came causa—which prevents any further action in the State courts, and directs that all further proceedings be tried before himself. When United States District Attorney G. H. Johnson was informed of this legal situation he would not discuss the procedure to be followed by the government in the Caffey incident.

### DORAN DEFENDS SHOOTING OF BEATTY

WASHINGTON, April 2. (Exclusive)—Prohibition Commissioner Doran when asked today about the shooting of William Beatty, Chicago municipal court bailiff, by Myron Caffey, a prohibition enforcement agent, said:

"From the reports we get, we are convinced that Myron Caffey was absolutely within his rights. What kind of a law is it that prevents a man from defending himself while he is serving a search warrant? The man Beatty stuck a revolver in Caffey's stomach. The agent did a quick spin, knocking the gun to one side and then fired at Beatty. That's all there was to it."

Mr. Doran said he does not believe Caffey will be arrested, but that if he was the government would defend him.

### SARGENT MAY REFUSE TO GUARD CHICAGO POLLS

WASHINGTON, April 2. (Exclusive)—Indications tonight are that Atty.-Gen. Sargent will decline to allow the use of United States deputy marshals as election guards at the Chicago primary on the 10th inst. While Atty.-Gen. Sargent and John Marshall, his first assistant, maintained strict silence, other Washington officials expressed the view that the request of Marshal Anderson for 800 additional deputies at Chicago will have to be denied on legal grounds.

### Flood Measure Makes Headway

WASHINGTON, April 2. (AP)—The \$325,000,000 Jones-Senate Mississippi River flood-control bill passed today through two routine stages of its Congressional journey with its formal presentation to the House by its Flood Committee and the introduction of a resolution seeking preferred legislative status.

The resolution was referred automatically to the Flood Committee, which is expected to designate within a few days, probably tomorrow, the time when the measure will appear on the House floor. Debate would be limited to six hours on the legislation under the resolution, which was presented by Chairman Reid of the Flood Committee.

# STOCK MARKET TURNS WEAKER

Advance at Opening Held  
by Heavy Selling

Sharp Boost in Call Money  
Rate Aids Downturn

Volume of Sales Continues to  
Hold at High Peak

NEW YORK, April 2. (AP)—Stock prices turned reactionary today after an early period of strength, while a corrective reaction was held after the recent sustained advance. Heavy liquidation, which was stimulated by the buying up of the call money rate, 1/4 per cent, the highest since the year. Final quotations showed a long list of net declines ranging from 1 to nearly 5 points, interspersed with a sprinkling of stable gains.

Trading failed to maintain its early pace set last week, although the day's sales ran above 2,000,000 shares for the seventeenth consecutive full session.

The advance in the call money rate followed the calling of \$25,000,000 in loans, presumably heavy demands for funds in connection with quarterly meetings. There was no change in time money and commercial rates.

Highly erratic fluctuations took place in some of the higher specialties. Radio, for instance, opened 3 points lower at 17 1/2, but up to the close before the end of the first hour and then shot upward to a new high record at 19 1/2.

Then it dropped to 18 1/2 and stayed there for a last gain of 1 point on the day. General Motors sold off in early trading, rallied to 27 1/2 and closed at 26 1/4, off 3/4.

Falling pressure was quite evident against such issues as General Electric, Montgomery Ward, Eastman Chemical, Brooklyn Edison, Chase Thrashing, Greene Canine, Copper, Union Carbide, Texas Roller Bearing, Vanadium Steel and others.

**A Policy—and a Pledge**

CREATION of a type of investment service that will be, at once, rapid, comprehensive, and genuinely helpful is the goal toward which this house has, from its organization, directed its efforts.

Now fully functioning in Los Angeles, investment problems in its hands command extensive experience in the bond business, adequate facilities, and a mature judgment based upon accurate, carefully analyzed information.

We seek the opportunity to serve investors who will put that type of investment advisership to the test—and satisfy themselves that we can make it competently.

**GLADDING-McBEAN**

An Outstanding Long Term Investment

For substantial enterprises, in our opinion, have contributed most to the development of California and the West than Gladding-McBean.

Organized in 1875 with a capital of less than \$12,000, the company has grown steadily and soundly until today it is one of the largest businesses of its kind in the West.

Products include terra cotta; roof tiles; all types of brick; floor and hollow tile; chimney, sewer and conduit pipe; and all types of pottery.

Cannot meet over 5 times current liabilities.

No preferred stock.

Common dividends (earned twice over after generous depreciation charges) have been paid monthly without interruption for over 40 years.

Dividends include some of the most prominent and successful ones in the West.

Further information and price on application.

# METAL MARKET TONE IMPROVES

Copper Buying Slows Up But  
Price Stiffens

Lull in Demand Regarded as  
Only Temporary

Trend of Zinc Upward; Lead  
Status Unchanged

BY CHARLES F. WILLIS  
Editor Mining Journal, Phoenix

Although the metal market has slowed up during the past week, the price of copper has stiffened an eighth of a cent and some producers are asking 14 1/4 to 14 1/2 Connecticut points, or 13.90 New York. However, most of the metal being sold is an eighth of a cent under this price. Lead has remained quiet at 8.00 and zinc has had a tendency to increase, but is still selling for 5.67 to 5.70.

The present slowness of the metal situation was expected after the rush of business during the latter part of February and the first half of March, although another buying wave is not far away, as the purchases for April and May deliveries are not nearly enough to take care of the requirements of the manufacturers.

March is a big dividend month. The total dividends paid by mining companies during March, 1928, totaled \$22,949,492. This is considerably more than the dividends paid in December, the corresponding quarterly period, when \$24,512,694 was distributed, and a substantial increase over March, 1927, when but \$27,817,175 was sent out to stockholders. The dividend increases reflect a better condition with the mining companies in so far as earnings are concerned.

**ZINC IMPROVES**

There is an upward tendency to the zinc market, which is being strongly resisted by the zinc buyers. The immediate future of the zinc market is very largely dependent upon the continuation of the tri-state district curtailment, which started a short time ago. Zinc cannot possibly continue to be sold at present prices with the price of concentrate standing as it is now, \$40 per ton in Joplin.

The report of the American Zinc Institute for the first half of March shows that there was an increase in zinc stocks of 2380 tons, which on March 15 stood at 44,570 tons. There were 26,143 tons produced during this period from an average number of 67,745 retorts. There is 26,986 tons of zinc sold for future delivery which had not been shipped on the date of the report. The average price obtained during the first half of March was 5.56, which is a very low average under present cost conditions.

The falling down of the proposed world combination, embracing American and European zinc smelters, to work toward zinc stabilization, was not unexpected, as the whole thing presented insurmountable difficulties. It is expected, however, that out of this movement will come a combination of European zinc smelters as a syndicate to stabilize prices and curtail output if necessary, and a European zinc institute somewhat similar to the American Zinc Institute.

**LEAD TRADE DULL**

Lead is unusually quiet, with sales below normal. The contract price is being rather rigidly adhered to and there is no tendency to either cut prices or increase them.

The world production of lead during February was at the rate of 4523 tons daily, as against 4339 tons daily during January and 4468 tons daily during December. The 1927 average was 4514 tons daily. The total February production was 131,169 tons. The increase came from United States and Canada, while there are decreases from Mexico, Spain, Germany and Australia. These figures represent about 90 per cent of the world's total, as no reports can be obtained from some countries.

There is much confidence in the copper conditions, stocks are down to a low point, copper is being shipped just about as it is produced and the producers have shown that they were able to weather a period of inactive buying and maintain their price. Production is being held down and was incidentally, 6212 tons less for the first two months of 1928 than for the same period of 1927.

**EXPORTS FAIR**

While foreign sales of copper are maintaining well, there is nothing "bullish" in the sentiment abroad. Stocks in Great Britain are maintaining about the same. Germany is falling off in its takings, with further declines expected. There is an unrest and financial disturbance in Germany that is lessening its copper consumption and it is probable that they will assume considerable loss of the metal this year than last. All of the other European countries are expected to increase their copper consumption during 1928.

European countries were heavy buyers of copper during the recent buying wave. The exports from the port of New York during the first three weeks of March totaled 17,290 tons, going to Germany, England, France and Belgium.

There is not nearly the confidence in lead and zinc, although both are reasonably strong in price. The price is entirely too low, but it is difficult to correct the conditions which cause the low price. Lead and zinc production figures cannot be as easily handled as in copper and competition in selling is more keen.

**BANK RIGHTS REGULAR**

Rights of the Los Angeles-First National Trust and Savings Bank were delivered yesterday and traded "regular" on the Los Angeles Stock Exchange. Stock of the bank will sell "ex-rights" on the 11th inst. in San Francisco and the 12th inst. here.

A national child welfare service is to be established in Cuba for the protection of mothers and infants.

# LOS ANGELES EXCHANGE

New High Prices Mark Irregular Trading; Bank  
Stocks Under Pressure

Although several new peaks were recorded, irregularity featured the movement of prices yesterday on the resumption of the week's trading on the Los Angeles Stock Exchange. Pan American Western, on various rumors, none of which was officially substantiated, advanced 2 1/2 points on a comparatively large demand and touched a new peak of 24 1/2. Other oils closed irregularly, while bank stocks fell off sharply.

Los Angeles-First National Bank, and Union Associates fell off 7-8 and 1 respectively to 49 5/8 and 50. Bolsa Chica moved up 12 cents for a new peak of 87 1/2.

Globe Grain advanced 1 point to record another new top at 100. Southern California Edison 5 1/4 preferred recorded a new high at 25 1/8 and closed steady at 25. The common stock was off 3-8 to 45 1/4. In the mining division New Gibraltar continued to move into new territory and marked a new record price of 39, up 9 cents.

Stock transfers amounted to 198,642 shares. Bond transactions aggregated \$455,000.

STOCK MARKET  
TURNS WEAKER

(Continued from Twelfth Page)

Bears rebuffed, all off 2 to nearly 4 points.

Gold presented several points of strength on buying influenced by reports of improving trade conditions. Houston was the outstanding individual feature, soaring 11 1/2 points to a new high at 121 1/2. Atlantic Refining was bid up nearly 6 points to a new high at 121 1/2, but slipped back to 118 at the close. General Asphalt preferred jumped 1 1/2 points to a new high at 121 1/2 and the common closed a point higher at 90 after having touched 83. Sinclair, which was under heavy accumulation last week, reached 1 3/8 to 37 1/4 on realizing. Pan American Western B touched a new high at 23 1/4.

Nearly two weeks of trading were marked up to new high records in early trading. Wright Aeronautical jumped 9 points to a new high at 110 and then slipped to 100. Other issues to establish new peak prices were American Bosch Magneto, American Dental, American Cyanamid, American Locomotive, Fairbanks, Morse, Ludlum Steel, Public Service 1 per cent preferred and Western Electrical Instrument.

Rails yielded with the industrials, although independent strength was shown by the Western Maryland issue, the common closing 3 1/4 points higher at 46 1/2 and the second preferred jumping 1 1/2 to 47 1/2. St. Paul common and preferred and Great Northern preferred attained new high prices in the early trading and then lost all their gains on profit-taking.

Commodity prices were mixed. Grain futures declined slightly, despite the publication of private crop estimates indicating the lowest winter-wheat condition on record with two exceptions. Cotton rallied nearly \$1.50 a bale on buying influenced by better trade news. Coffee and sugar quotations showed little change.

Foreign exchanges moved within narrow and irregular limits. Sterling held firm around 44 1/2-45.

**Heavy Selling Halts Advance on Wheat Mart**

CHICAGO, April 2. (Reuters)—Bullish wheat estimates, which wheat dealers were responsible for an early start in prices failed to have a lasting effect and there was free selling toward the end in sympathy with the wheat decline in corn. The close was 1/2 cent lower. Corn closed 1/2 cent lower at 1 1/2. The wheat market was unchanged.

There was active local and commission business in wheat and wheat futures. The wheat market was unchanged. The wheat market was unchanged.

### OIL COMPANY'S CASHIER ROBBED

Three Bandits Get \$17,000 in Noon-Time Crime

Hold-up Messenger and Official at Plant

Trio Lie in Wait for Their Victims One Hour

Three bandits obtained approximately \$17,000 in a daring daylight hold-up about noon yesterday near the office of the Pan American Petroleum Company, 1201 West Washington street. The money was in a satchel carried by Alfred Boner, 23 years of age, employed as messenger for the company, and Lloyd Rawley, 40, cashier.

The two had just emerged from the company's office and were about to enter their car when the bandits suddenly appeared and covered them with guns. One of them snatched the bag from Boner's hands. Two robbers obtained the money while the third remained at the wheel of their auto. The money, all of which was in currency, according to officials of the petroleum company, was to have been deposited in a downtown bank.

Witnesses reported after the robbery that the bandits evidently were lying in wait for the messen-

### YOUTH KILLED BY PROPELLER

Fatal Accident Occurs at Flying School During Turning of Motor

Richard Madaria, 21 years of age, 5800 South Flower street, was fatally injured yesterday when he stepped on the path of a propeller while tuning an airplane motor at the Warren School of Aeronautics, Glendon avenue and Main street.

The blade struck him in the head, laying open one side of his jaw. He was taken to the Georgia-street Receiving Hospital, where he died a short time after being admitted.

\*\*\*\*\*  
Captain of Detectives Cahill and a squad of detectives obtained detailed descriptions of the trio.

\*\*\*\*\*  
TRAFFIC SIGNALS WANTED  
The San Fernando branch of the Los Angeles Chamber of Commerce yesterday asked the City Council to order the installation of traffic signals at the intersection of Van Nuys Boulevard and Syvan street.

### BLONDS COURT'S PREFERENCE

Judge Hardy Says It With Writ

SALLY RAND CORA PALMER LAURA LA PLANTE

PROVING that film actresses are not exempt from skirmishes with the law, Municipal Judge Hardy yesterday issued bench warrants for the arrest of Sally Rand, Laura La Plante and Cora Palmer when they failed to appear in the City Traffic Court.

The trio were arrested by motorcycle officers on January 27, last, for various violations of the traffic laws but disregarded the summonses commanding their presence in court, according to Chief Urban Smith.

Miss La Plante was charged with speeding thirty-six miles an hour at Third street and Western avenue, failing to have an operator's card and for passing a street car.

Judge Hardy also issued a bench warrant for Miss La Plante's sister Violet, charged with illegal parking on Hollywood Boulevard.

Miss Palmer is accused of failing to obey a boulevard stop at Third street and Vermont avenue, while Miss Rand is charged with illegal parking on Wilcox street near Hollywood Boulevard.

Addresses of the film stars were given on the complaints as follows: Miss Palmer, 7021 Hollywood Boulevard; Miss Rand, 1100 Locoma Boulevard; and Miss La Plante, 315 North Rosemead street.

### SCHOOL HEADS AT LONG BEACH

Principals' Association Opens Five-Day Conclave

Noted Educators Will Be on Speakers' List

Group Discussions Feature Initial Session

By a "Times" Staff Correspondent  
LONG BEACH, April 2.—With approximately 1200 delegates in attendance the thirteenth annual convention of the California High School Principals' Association got under way here this morning for a five-day conclave. The auditorium of the First Presbyterian Church, where main sessions are to be held, was filled to overflowing with educators from every section of the State. Practically every senior and junior high school and every junior college is represented. Dr. Leonard K. Koon of the University of Minnesota, one of the outstanding educators of the country, delivered the keynote speech.

\*\*\*\*\*  
WELCOME ADDRESSES  
Addresses of welcome were made by Assistant City Manager Buck W. Stephens, Superintendent of Schools, and Mrs. Percy F. Glover, president of the Long Beach Principals' Club. William John Cooper, State Superintendent of Public Instruction, who presided, delivered a brief address and was presented with a gavel made from woods gathered from various parts of the State.

\*\*\*\*\*  
In response to the addresses of welcome was made by W. W. Brownell of Gilroy.

The "flaming youth" type of high school student has constituted more than 10 per cent of the high school students of the nation, it was declared by representatives of the Association in its first session.

Radical changes in the school curriculum, rapid growth of schools and numbers enrolled, the invention and spread of new methods of teaching, enlargement of the extra-curricular program, work in the field of guidance and personnel and the coming of the junior high school and junior colleges are factors of educational work touched upon by Dr. Koon in his address.

\*\*\*\*\*  
GROUP MEETING  
The afternoon sessions were devoted to group meetings at which discussions were held on discipline, including such topics as gossip, cheating, drinking, smoking and bootlegging. Other sections discussed art, physical instruction, health, speech, arts, early-time education, records and reports, standards for school libraries and other kindred subjects.

\*\*\*\*\*  
Reorganization of the State Department of State Education" is the subject on which State Superintendent Cooper is to address the general session tomorrow afternoon, following the business session, when a bench party is to be held at the Belmont Hotel.

\*\*\*\*\*  
The afternoon session has been advanced to commence at 1 o'clock instead of 1:30 as originally planned. Picnic suppers will be served on beach around twenty-five booths.

\*\*\*\*\*  
PAIR HELD FOR TRIAL IN HOLD-UP  
Reed and Ruth Testify on Bank Robbery Attempt in Which Bandit Fell

Waiving preliminary hearing Alfred E. Reed and Albert Roth, captured in the attempted hold-up of the Merchants' National Trust and Savings Bank March 30, last, were held for trial yesterday by Municipal Judge Valentine on charges of attempted robbery and assault with intent to commit murder.

The men took the witness stand and testified as to their part in the asserted hold-up attempt in which Frank Ralidze, ex-convict and accused leader of the bandit gang, was shot down and killed by George Fisher, bank guard. Fisher was present in the courtroom at the arraignment, but did not testify when the pair waived hearing through their attorney, Stanley V. Sel.

Judge Valentine remanded Reed and Roth to the County Jail on \$10,000 bail each, pending trial in the Superior Court. They are charged with conspiracy with attempt to rob E. A. Carroll, manager of the branch bank, and attempting to murder Fisher, the guard, who captured them after a thrilling gun duel.

\*\*\*\*\*  
Photographers Open Exhibit of Amateur Films  
Under the auspices of local photographic organizations an exhibition of amateur home motion pictures under the direction of the Eastman Kodak Company opened yesterday in the Beaux Arts Auditorium. It will be continued today, Wednesday and Thursday.

The feature of the exhibition is an amateur home motion-picture play made by the Community Players of Rochester, N. Y., an amateur theatrical group similar to hundreds of others scattered throughout the country. The story is told in two reels by amateur actors who aspire to a polar flight and of a girl who goes up in a plane and comes down in the water and yet is not the distinction of being a transatlantic flyer.

The exhibition also includes comedies, travel pictures and educational films made by professionals and reduced to amateur-standard size. Music is furnished by a double-disc electric phonograph with a radio amplifier. This is a new stand, a recent creation of the Kodak company.

### FAST HARM OF FOREST FIRES CITED

Forestry Official Tells City Club 729,000 Acres in State Burned in Year

Forest fires destroyed trees, underbrush and shrubbery over an area of 729,000 acres in California last year, according to Herbert N. Wheeler, chief lecturer for the United States Forest Service at Washington, D. C., who last night, gave an illustrated lecture at the open forum session at the City Club on Spring street.

The address covered forestry, reforestation and conservation problems in general and gave graphic pictorial proof of the havoc wrecked by indiscriminate cutting of timber, fire caused by carelessness, and the destruction of game.

He pointed out that, in his opinion, true conservation consists in saving the timber, but replanting it with new stock. Our timber has heretofore been mined, instead of having been treated as a crop, he said.

He opposed the practice of cutting down young trees, comparing it to the action of a community which might kill off all the boys and girls, and thereby accomplish its own destruction.

The entire lecture was illustrated by colored slides made from photographs taken in the various national forest areas of the United States. Following the address, the speaker answered questions propounded by members of his audience.

### DR. CABLE'S THIRD TRIAL UNDER WAY

Woman in Court to Defend Damage Suit Arising From Shooting of Boy

For the third time Dr. Louise Cable stood before the Superior Court yesterday to account for the death of Benito Frassin. Twice she was tried in the criminal divisions, one jury disagreeing and the second acquitting her, and yesterday she appeared before Judge Crawford for trial of the suit of Damiano Frassin for \$60,000, demanded as compensation for the slaying of his son.

Young Frassin, 14 years of age, was shot fatally last June 13. At the time, it was testified at the criminal trial, his father, Damiano Frassin, was arguing with Dr. Cable over her objections to his hunting rabbits on her Lankershim ranch.

Mrs. Cable related that the shooting was accidental. She said that a pistol she was carrying was discharged accidentally when she stumbled while running to the aid of her husband, Attorney C. F. Cable.

Judge Crawford transferred the damage suit to Judge Hanby's department, where trial will continue today.

### FOUR AUTO DRIVERS GET JAIL TERMS

Sentences Given After Week-End Campaign on Reckless Motorists

Taken into custody in the police campaign over the week-end against reckless drivers, four men were given terms in the City Jail yesterday by municipal Judge Gray. They were charged with being intoxicated instead of driving while drunk, a felony, because arresting officers doubted there was sufficient evidence to convict them on the more serious charge, according to Deputy City Prosecutor Ford Jack, who prosecuted.

J. A. Jeter and James Newton received thirty-five days each, and Roy I. Scott and Rudolph Winger were given thirty days each.

### JOLT THREATENS JULIAN DEFENSE

(Continued from First Page)

yesterday when Municipal Judge Sheldon set the trial over for July 16 on motion of Deputy City Prosecutor Rosenblum.

The prosecutor declared he was unable to proceed with the case since important documents are in the hands of the District Attorney for prosecution of the Julian defense now on trial in Superior Judge Doran's court. Deputy Rosenblum, however, argued against the defendant's motion, made by Attorney Oscar Lawler, for a continuance until November, stating it is the policy of the City Prosecutor's office not to approve continuances of more than ninety days.

### Parents Find Son Hanging From Rafter

Howard Schwartz, 20 years of age, 3431 Greenward street, took his own life last night, by hanging himself in the garage at the family home, according to the report of the Hollywood police.

In telling of the suicide, parents of the youth told police that when they started for an auto ride the son was at home, seated in the living room. When they returned, and the headlights of the car flooded the garage, the body was revealed hanging from the rafters. A rope had been tied about the neck.

Cutting the body down, the parents called Dr. John Rogers of Glendale, who found the youth still alive. Rescue Squad No. 2, composed of Firemen McLaren, Miller and Wright of the Hollywood Fire Department, was summoned, but efforts with the pulmotor failed to revive the young man.

### AIR LINE NETWORK PLANNED

Proposed System to Cover Entire Pacific Coast Disclosed With Signing of Stock Permit

Plans for the establishment and operation of a new network of airplane transportation lines covering the entire Pacific Coast were disclosed at the office of the State Corporation Department yesterday when Assistant Commissioner Walther signed a permit authorizing the sale and issuance of stock of the Mutual Inland Air Lines, Inc., and the Shore Mutual Air Line, Inc.

The two corporations, which were organized under the laws of this State, are subsidiaries of a parent company, the Mutual Aircraft Corporation, which received a stock-selling permit some time ago. The three companies are to be the nucleus of a dozen or more similar corporations which, when all established, will provide the Pacific Coast area with a complete air service, according to information on file at the Corporation Department.

\*\*\*\*\*  
NO STOCK FOR PUBLIC  
Each of the companies which received a permit yesterday is capitalized at \$500,000, but it is planned that no stock shall be offered to the public, it was stated.

Among the officers of the two companies are Melville E. Rapp, president, and James T. Hurst, secretary. Rapp is president of the Santa Monica Realty Board. Hurst is an automobile and oil man.

According to the applications for the stock-selling permits, the subsidiaries of the Mutual Aircraft Corporation each will operate a distinct section of the proposed network.

\*\*\*\*\*  
TERMINALS OF LINES  
The first lines will have terminals at Los Angeles, San Francisco, San Diego, Bakersfield, Stockton, Sacramento, Santa Barbara, Yosemite, El Centro, Fresno, Palm Springs and other points, it was stated.

Eventually, according to the plans, a line will be extended to Phoenix, and through all the major points in Washington and Oregon. To cover all this territory a number of four-passenger airplanes have been ordered. They will be manufactured by the E. I. Mahoney Company, builders of the planes used by Col. Lindbergh, it was declared.

Signing of the permits was Walther's last official act as assistant commissioner. He left the State Department yesterday to open private law offices in the Hellman Bank Building.

### Judge to Take Helm Tomorrow for Optimists

The inauguration of new officers of the Los Angeles Optimist Club will be conducted tomorrow noon in the ballroom of the Biltmore. P. W. Baiter will be chairman of the day.

\*\*\*\*\*  
WAREHOUSE RAID CASE TRIAL CONTINUED  
The so-called warehouse liquor case, in which thirteen defendants are accused of looting the local government liquor warehouse of nearly 800 cases of liquor, was continued yesterday by United States District Judge Henning until July 9, the date set for trial. In a previous trial of four of the number the jury failed to agree. Later the Federal grand jury indicted all again on charges of robbery or a warehouse watchman and conspiracy to violate the National Prohibition Act.

\*\*\*\*\*  
University Bids Due on Monday  
Bids for the plumbing, heating and ventilation systems of the physics and chemistry buildings of the new University of California at Los Angeles will be opened next Monday. Work on these buildings, the third and fourth major units of the Westwood group, began yesterday and will be rushed to completion, to be ready when the university moves to the site next February.

Bids also will be opened Monday for the outfitting of the new building which will serve the university, running through the campus in Stone Canyon Road. All bids must be received by Robert Underhill, assistant comptroller, before 11 a.m. Monday.

### ANTICIGARETTE LAW ORDERED

Law Will Prohibit Vending Machines

Law Taken on Plans of School Heads

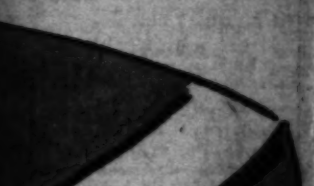

Law Made to Cut Smoking Among Minors

Sanitation to put the cigarette-vending machines out of business in Los Angeles and to prohibit the sale of cigarettes to minors was ordered by the City Council yesterday.

The debate over the anticigarette legislation was prolonged. All members of the Council said they are in favor of the law, but they differed on the details of the ordinance. The Council then instructed Attorney Stephens to prepare a present ordinance in line with the law prohibiting the sale of cigarettes to minors and in line with the law prohibiting the sale of cigarettes to minors from vending machines out of business.

Assistant City Attorney Whitehead said the ordinance will prohibit the sale of cigarettes to minors and in line with the law prohibiting the sale of cigarettes to minors from vending machines out of business.

Sixty-one in One Day Given  
Permits for Travel in  
Foreign Lands

Surpassing the record of a  
year ago, L. J. Cordes, gov-  
ernment passport clerk, yes-  
terday reported that sixty-one  
passports were issued during  
the day for Southern Califor-  
nia persons seeking permits to  
travel in foreign countries.

This record exceeds any  
former high record, it was  
stated. Most of the passports  
were for pleasure and busi-  
ness, including tours of Eu-  
ropean countries.

Two were for world tours  
and three for trips to the  
South Sea Islands.

cigarette-vending machines out  
of business in Los Angeles were made  
to the Council by City Superintendent  
of Schools Dorsey and County  
Superintendent of Schools Keppel.

They said the vending machines  
place temptation in front of school  
children and that to guard the ma-  
chines to keep them from being pal-  
sonized by minors is practically im-  
possible.

**STREET PAVING SOUGHT**  
The Montana District Improve-  
ment Association yesterday asked  
the City Council to prepare plans  
and proceedings for the paving of  
Montana avenue from Bundy Drive,  
Los Angeles, to Twenty-sixth street,  
Santa Monica, the improvement to  
include curbs, sidewalks, gutters and  
ornamental lights.

City Attorney White-  
house was requested. All mem-  
bers of the council then instructed  
the City Engineer to prepare  
plans and proceedings in line with  
the ordinance which prohibits the  
sale of cigarettes to minors and in  
line with the Pasadena ordinance  
prohibiting minors from operat-  
ing cigarette machines on streets and in  
public places.

## REAL DANGER LIES IN CONSTIPATION

Science Says Soft Lax and a Soft Diet Are Dangerous

90% of modern city people suffer from constipation, says medical science. Irregular and incomplete bowel movements are the causes of yellow cheeks, headaches, sleeplessness, and loss of vitality, and almost always pave the way for more serious ailments. Frequently constipation is the starting point of trouble which results in premature disability or death.

Soft life and a soft diet are the principal causes of constipation. The relief is simple—add natural 100% bran—Pillsbury's Health Bran—to your diet. Don't form the dangerous laxative habit—use roughage, the natural cure. Primitive man ate roughage, and had no constipation. Modern man needs roughage—the best kind is the true 100% bran, Pillsbury's Health Bran. It furnishes the bulk you need so badly.

Warning—be sure you get natural 100% bran—Pillsbury's Health Bran. That's the kind of bran your doctor means when he says, "Eat bran." Because it is uncooked, unsweetened and unadulterated, it really does the work—you get the full, gentle, natural laxative action of the unbroken flakes. You can use it to prepare any number of delicious foods—muffins, tea-cakes, apple cake, macaroons, doughnuts, etc. That's the way to eat bran—your own home baking does not crumble it and reduce its laxative value.

Delightful recipes are printed on every package of Pillsbury's Health Bran—eat it some way three times a day.

**Pillsbury's Health Bran**

## PRACTICAL RECIPES

(Requests for recipes and information pertaining to the preparation and serving of foods will be answered in this column every Tuesday. Address all requests to A. L. Wynn, Laboratory Kitchen, 424 Arden Avenue, Glendale.—Ed.)

CHEF WYNN'S ANSWERS

**SWISS CHARD**  
O. H. Alhambra, Cal.: The chard is prepared by removing all the green part of the leaves which can be cooked like spinach. Cut the thick midrib into two-inch squares, steam or boil until tender in boiling water, and drain. Beat an egg slightly with two tablespoons of water and one of flour. Dip each piece in this and fry in hot shortening, or the butter can be left off and a cream sauce poured over. Note: The Swiss Anise I have not used so I am unable to give you any recipes for it.

**ENGLISH TOFFEE**  
W. E. G. Los Angeles, Cal.: The English Toffee recipe was printed in the Practical Recipe Column March 13, 1928.

**DROP COOKIES**  
O. C. La Jolla, Cal.: One cup of butter, one cup of sugar, one beaten egg, one-half cup of sour milk, two and a half cups of flour, four tablespoons of baking powder, one-fourth of a teaspoon of soda, cream the butter, beat in the sugar, egg and milk. Sift the flour with the soda and baking powder, and beat into the first mixture. Add one teaspoonful of vanilla; drop in small teaspoonful on buttered cookie tin and bake in a hot oven ten minutes.

**BOILED HALIBUT**  
Place in a kettle enough water to cover a four or five-pound center cut of halibut, add one sliced onion, two stalks of celery, and three branches of parsley. Bring to a boil and boil ten minutes. Add the juice of one lemon and cook until the fish is tender. Lift out the fish, place on a hot platter, remove the skin and pour over a sauce.

**HAM IN CIDER BORDER**  
R. H. H. Los Angeles, Cal.: Soak

A Delicious Dessert  
—that's GOOD for You!

Serve Jell-O for dessert, any meal, any occasion. It's always appropriate.

Delicious, beautiful, Jell-O always jells well. It's healthful, too. Doctors recommend it.

Your grocer has it in six fruit flavors. Try Log Cabin for a change. Look for the RED box and remember the name—Jell-O.

FREE! Send for a FREE packet of Jell-O today. It contains a recipe for a delicious dessert, and a coupon for a free packet of Jell-O. Write to Jell-O Company, New York, N. Y.

two tablespoonfuls of granulated gelatin in one-third of a cupful of cold water, fifteen minutes. Stir in to three cupfuls of hot boiled cider and stir until dissolved. Mix one pound and a half of cold cooked ham, cut in small dice with two cupfuls of chopped pimiento, five tablespoonfuls of chopped pickles, half a teaspoonful of ground cloves, and two tablespoonfuls of finely-chopped onions. Cover the bottom of a mold with sliced hard-boiled eggs, add the mixture, pour in the gelatin, and set in the ice box for three hours. Unmold on lettuce-covered plates and garnish with parsley and lemon slices.

Note: Hope this is what you want; other vegetables can be added such as green peppers and chopped celery to this mixture, and some of the mixture made up, marinated with French dressing, filled into the center of your ring when unmolded and garnished with mayonnaise.

**VEGETABLE MARROW**  
C. W. W. Los Angeles, Cal.: I am glad you are so thoroughly enjoying your book. The vegetable marrow you speak of is really a western vegetable and cannot always be procured in market. It is similar in size and shape to a cucumber, but only a lighter green in color and is very delicious prepared in many ways, and grown extensively in England.

**FRIED CREAM**  
Two eggs, one-half a cupful of sugar, six tablespoonfuls of flour, one-fourth of a teaspoonful of salt, two cupfuls of scalded milk, one teaspoonful of butter, one teaspoonful of vanilla, three-quarters of a cupful of fine dry bread crumbs, one egg and two tablespoonfuls of sugar, flour, salt and scalded milk. Mix well and cook in a double-boiler until thick, stirring constantly, remove from the fire, add the butter and cool slightly. Add the vanilla, pour into a small oiled pan to three-quarters of an inch in thickness. Place in the ice box overnight, cut in pieces two inches long, and one inch wide, roll each piece in crumbs, dip in beaten egg, diluted with the water and roll again in crumbs; fry in deep hot shortening until a delicate brown. Drain on unglazed paper, serve with powdered sugar, melted jelly or maple syrup.

We do not send recipes by mail. Please do not include stamped and addressed envelopes.

**LIVER LOAF**  
H. E. H. Huntington Beach, Cal.: M. J. H. Pasadena, Cal.: One pound calves liver that has been parboiled for not more than ten minutes, allowed to cool, and chopped fine or run through a grinder.

One-half a pound of cold boiled ham, chopped fine, one-half a cupful of stock, one-half a cupful of bread crumbs, two tablespoonfuls of chopped parsley, two tablespoonfuls of chopped green pepper, two tablespoonfuls of chopped pimiento, two tablespoonfuls of finely chopped onion, two tablespoonfuls of chopped celery, three eggs beaten until light, salt and pepper. Moisten the chopped ham and liver with the stock, mix in the seasonings and bread crumbs, and add the beaten eggs. Make into a loaf. Place in a baking pan and bake in the oven for one hour, basting with a little melted butter and water. Serve with a good meat sauce.

**DEVILED PARSNIPS**  
Wash and scrape six medium-sized parsnips and cut in half lengthwise. Place in a pan with the cut side up and bake in a hot oven until soft but not browned. When baked, remove from the oven and make four slanting cuts in each of the halves so that they will hold the following mixture. Soften one half a cupful of butter without melting it and rub into it one teaspoonful of salt, two teaspoonfuls of dry mustard, a little cayenne pepper, paprika and flour enough to make a paste soft enough to spread. Fill each parsnip with as much of the paste as it will hold, arrange on a serving dish, sift with fine buttered bread crumbs and place in the oven until the crumbs are brown. Serve with a meat sauce.

**BUTTERMILK PIE**  
Yolks of four eggs, two cupfuls

of buttermilk, four tablespoonfuls of flour, one teaspoonful of cinnamon, two-thirds of a cupful of sugar, one-half a cupful of seeded raisins, one-quarter of a teaspoonful lemon extract, one-quarter teaspoonful of cloves. Beat part of the sugar into the yolks of the eggs and part into the buttermilk and combine the two mixtures. Add the spices, the flour and the extract. Mix smoothly and pour into an unbaked pie shell and bake until firm in the center. Remove from the oven, make a meringue of the whites of the eggs and sugar and spread over the pie. Return to a very slow oven and bake until the meringue is colored.

**BRUNSWICK STEW**  
H. W. L. North Hollywood, Cal.: For eight or ten persons allow two three or four-pound chickens; clean and cut them as for stew and place in a stewpan with a tight-fitting cover and add a seasoning of salt, white pepper, red pepper and one finely chopped pepper and one finely chopped onion, cover tight and simmer for three hours. Remove from the fire, extract all bones, and add two cupfuls of corn, fresh or canned, three cupfuls of diced potatoes, four cupfuls of tomatoes, one cupful of lima beans, and one peeled and diced carrot, one peeled and

diced cucumber and one cupful of sliced chris. Add two tablespoonfuls of butter, cover tightly and simmer until all the vegetables are so soft that you can mash them with another. Serve with timbales of boiled rice. Be careful that it does not burn.

## NEW WRINKLE ADDED TO FILM PUBLICITY

STUDIO KENTING STAGE SPACE TO INDEPENDENTS PROVIDES PRESS BUREAU

A new wrinkle in motion-picture publicity was established yesterday at the Tec-Art studio in Hollywood with the creation by Alfred T. Manon, executive at the studio, of the Tec-Art Consolidated Publicity Bureau, with Dan Campbell in charge. The Tec-Art studio rents out stage space to various independent units and heretofore these companies have had to engage their own publicity representatives.

With the establishment of the bureau, however, every independent concern producing on the Tec-Art lot is given the service of the bureau with the service of other branches of the studio.

## Girl Flying to Mother Here

Miss Gladys Shaw of Newark, N. J., is on her way here by airplane to see her mother, Mrs. Floetha Shaw of 305 South Grand avenue, Pasadena. She is scheduled to arrive at Van Field at 5:30 p.m. today.

Miss Shaw is said to have a two-fold purpose in making the trip—to visit her mother and also to be in time to greet a naval aviator who will arrive at San Pedro on the airplane carrier Lexington. Mrs. Shaw does not know the name of the young man, she declared yesterday. The mother is employed by the widow of the late Rudolph Schiffman, multimillionaire manufacturer.

"And Yet It Is a Great Tale" Human life as Joseph Conrad had seen and experienced it since childhood was for most people a quiet desperation. The history of men on this earth, he remarked, might be written on a cigarette paper "in one phrase of infinite poignancy: 'They were born, they suffered, and they died.' And yet it is a great tale."—Wilbur Cross in Yale Review.

## Rites Thursday at Pasadena for Minister

Funeral services for Rev. Hostie Y. Smith, 41 years of age, who died yesterday at his home on Balboa island, will be conducted Thursday at 3 p.m. at the undertaking establishment of Turner & Stevens in Pasadena. Mr. Smith had been ill for some time.

Born in the American Consulate in Weisbaden, Germany, he returned to this country at an early age, and for several years was a member of the faculty of the California Institute of Technology at Pasadena. In 1924 he entered the ministry and became pastor of the New Jerusalem Church in San Diego, a post he held for three years, during which time the church was able to build a new structure largely through his efforts. He retired some time ago on account of ill health and has been spending his time at his Balboa island home. He leaves his wife, one son, Hostie, Jr., 6 years of age, and his mother.

## Feather Weight Biscuits—A Recipe

Into 2 cups cream put 1 egg, 1 teaspoon salt, 1 tablespoon butter (or shortening). Beat together in quick oven.

## FEET LOADS UP FOR HAWAII TRIP

Thousand Tons of Sea Stores Go Aboard

Men-o-War to Make Long Journey

Destroyers on Way to Join

Facilities of the little fleet, now in the San Pedro-San Diego area, are this week being used to prepare for the departure of the fleet to Hawaii, on which Admiral Louis R. Beakley, commander-in-chief, will lead a force of more than eighty men-o-war, on the 15th inst.

Thousands of tons of stores are loaded by the battalions of men and train soldiers, and all units will be fueled to capacity before departure. Final maneuvers, still in progress, will end Friday. Sailing at 8 o'clock, the fleet will depart for Honolulu on the 15th inst.

OTHERS TO JOIN The force at San Pedro will be

**Men**  
are particular about their coffee

THEY demand full-bodied flavor—not mere strength. That's the reason all men enjoy this wonderful blend. We scour the world for the finest coffees; we blend and roast them to make sure of this full, rich flavor in every can. And the characteristic M·J·B flavor is *always* in every cup—whether you serve it mild, medium or strong. Our vacuum pack insures that. Serve this coffee to your men folks and see how much they appreciate it—one cup will demonstrate.

CARTHAY TO  
BE HOME OF  
MOVIETONE

Circle Showhouse Installs  
Tons of Equipment; Move  
Is Logical One

Fred Miller of the Carthay Circle Theater announced today that more than two and one-half tons of equipment have arrived by express from the Western Electric factory for Movietone installation at his playhouse, in time for the world premiere of the 10th inst. of Frank Borzage's Fox production of "Street Angel" starring Janet Gaynor and Charles Farrell.

This Movietone equipment, according to Miller, is to be "the finest ever installed in America," and experts will labor night and day between now and the opening date of "Street Angel" to make it absolutely perfect.

In commenting upon this latest move to provide the newest and best in entertainment along motion picture lines, Miller says:

"The Fox Film Company, which is the backer of Movietone, is preparing to make Los Angeles the production center for this new type of film entertainment. Two stages are now under construction at Fox Hills to be used exclusively in the production of Movietone subjects. The Carthay Circle Theater is affiliated with the Fox company, which is anxious that what is undoubtedly its finest theater in the West show the best of the Movietones, just as it does the premiere release of big productions like 'Street Angel'."

In addition to staged subjects with the Movietones, we will be able to offer world news events with the subjects not only being seen but heard.

Irving Pichel  
to Interpret  
O'Neill Drama

An interpretative lecture covering the symbolism of "Lazarus Laughed," Eugene O'Neill's new play which is shortly to be given its world premiere presentation at the Pasadena Community Theater, has been arranged by the Pasadena Drama League for this evening.

Irving Pichel, who carries the role of Lazarus in the play, and who was formerly director of the Santa Barbara Community Theater, is to give this interpretative foreword at 8:15 in the recital hall of the Playhouse. The meeting is open to the public.

With the opening of "Lazarus Laughed" less than a week away, players are rehearsing daily in preparation for the production which is probably the most ambitious to be attempted by the Pasadena Playhouse.

New Bill Comes  
in Easter Week

Easter week at the Hillstreet will be a specially brilliant affair, with Beverly Bayne and her company in personal appearance in "From Eight Till Twelve," a comedy playlet. The Younger Foy, six of 'em, are also headliners.

Jacqueline McLean brings a new offering called "A Dance Rhapsody." Du Cailion does feats of balancing. "The Suave Deceiver," Cardini, will confound the doubter of manipulation. Tommie Davis' Trio thrill with their novelty, "The Whirl of Death."

Red La Rocque will head the screen list in a Pathe-De Mille special, "Stand and Deliver," in which he is supported by Lupe Velez and Warner Oland. Donald Crisp directed.

R. H. Burnside  
Joins Publix

Harold R. Franklin, president of West Coast Theaters, Inc., yesterday announced that R. H. Burnside, one of the country's leading theatrical producers, will join the production department of the Publix Stage Revenues early this month.

Burnside, who has staged scores of successful comic operas and musical comedies, will devote Publix unit shows, to be offered at the Metropolitan Theater here, in alternation with John Murray Anderson and Frank Cambria. Jack Partington, formerly of the Metropolitan and now in New York, has just received a promotion, Franklin said.

Engagement to  
Terminate Soon

Pauline Frederick, the ever-popular star, has started the last two weeks of her limited engagement in "The Scarlet Woman" at the Belasco Theater. Upon the close of the engagement here the star will close her Beverly Hills home and go on an extended tour of the country not returning for many months, it is stated.

Following the conclusion of Miss Frederick's engagement at the New York cast, especially inspired for the local showing, will appear in "The Racket," a play of Chicago night life which has been staged in the East in the past year.

"Marquise" to  
Arrive Sunday

"The Marquise," Billie Burke's recent starring vehicle, will have its Pacific Coast premiere at the Morosco Theater Sunday afternoon. This stage effort is by Noel Coward, well-known playwright and author. Ray Hammond and Gayne Whitman will be seen in the leading roles.

WARDE ON "CAESAR"  
The subject of Frederick Warde's interesting lecture-recital series tonight at the Elks' Temple at Sixth and Park View is "Julius Caesar."

Real and Reel Self on View

Jack Mower  
Achieves a certain object by being in at least two places at once: on the screen stage in "The Moonlight Sonata," and on the Criterion screen in "Uncle Tom's Cabin."

NOVEL ACT PRESENTS DESMOND

It's a "variety show" in truth, this new program which opened a week's engagement yesterday at the Panthea, a show with the proverbial something for everyone, and a little bit more for any dance lovers who happen to be numbered among these present.

Representing the spoken drama on the bill is none other than William Desmond, who recalled to many those days of the old Burbank, where he won many friends as lead-in man.

Desmond appeared in a novel and cleverly staged one-act play, in which, strange as it may seem, he portrayed himself. A novel twist makes it impossible to reveal the plot, so it must suffice to state that the actor did a splendid job, assisted by two clever actors.

Running the other performers a close race for popularity honors was a dark-skinned gentleman billed as Dotsen. Dotsen proved conclusively that what he couldn't do with his left wasn't worth doing. He even executed what he termed a "21," a series of steps that did their best to live up to the name attributed to them collectively.

Big Pictures  
Are Booked by  
Loew's State

Lon Chaney in "Laugh, Clown, Laugh," "Doomsday," from the novel by Warwick Deering, and several other productions head the list of new bookings just announced for Loew's State Theater by Harold R. Franklin.

The dramatic romance of the clown who hides his heartbreak behind a painted smile, is said to be Chaney's most skillful acting role to date. It will be shown the week of the 15th inst. Loreta Young, a new screen recruit, springs into prominence as leading woman in the picture, adapted from David Belasco's stage success.

"Doomsday," scheduled for the 20th inst., features Florence Vidor and Gary Cooper, and is said to be a new theme, forcefully and dramatically presented.

Norma Shearer in "The Actress" will be shown on the 27th inst., and the week of May 8 will see Karl Dane and George K. Arthur in their latest comedy attempt, "Circus Rockies."

A new greater Panchon and Marco idea will be presented on the 20th inst. with each new picture. Daily Rand, Wampas Baby Star, and twelve hours from the "Bunny" show will be featured in the idea for the 20th inst., with Benny Rubin presiding as master of ceremonies. The first Lupton Lane comedy, "Pandemonium," will be an added attraction for that week.

This week beginning Friday, will bring Ramon Novarro in a sea romance, "Across to Singapore," with its action on an old bell ship and in the flaming underworld of the Orient's wickedest city. Ernest Torrence and Joan Crawford head the cast.

"Divine Venues" is the Panchon and Marco idea for Friday.

David Bennett  
Directs Show

David Bennett, general stage director, will be employed in that capacity at the Figueroa Playhouse during the producing of Robert Woolsey's new musical comedy. This was the statement issued yesterday by Arthur F. Smith, leasee of the theater.

Bennett holds the enviable record of directing seven hit hits that ran simultaneously in New York.

Lloyd Picture  
First in Year

Harold Lloyd, whose visits to the screen have been a little too infrequent of late to satisfy his host of followers, will be seen for the first time in more than a year, when his latest Paramount release, "Speedy," comes to the Million Dollar Theater, Saturday.

CRITERION  
WILL SHOW  
"SUNRISE"

Downtown Theater Plans  
Second Run of Fox Films  
Under New Policy

What is regarded as the first move upon the part of West Coast Theaters to book Fox films in all of their downtown houses comes in the announcement that "Sunrise," the F. W. Murnau production for Fox, tentatively is booked to go in to the Criterion May 1.

Fox Film Corporation recently acquired a controlling interest in West Coast Theaters and it has been rumored that such acquisition would be followed by changes in the booking schedules in theaters owned and operated by West Coast. Coincidentally with the showing of "Sunrise," the Criterion will install Movietone equipment for the purpose of putting in the Fox Movietone news reels and short features.

It is understood that the house will change from its present policy of first runs and two shows daily to that of second feature runs and continuous performances.

At present, "Uncle Tom's Cabin," Harry Pollard's production for Universal, is at the Criterion.

Mae Busch is  
Cast in Play  
for Hollywood

After trying out more than a dozen of Los Angeles' most prominent actresses for the feminine lead in "From Hell Came a Lady," to have the world premiere at the Hollywood Play House, the 19th inst., Joseph Schildkraut has chosen Mae Busch, screen player, for this difficult role, according to an announcement yesterday by Fritz Feld, manager of productions.

In explaining his selection Schildkraut said, "With all the wealth of acting material to choose from right here at home, I felt that rather than send to New York for my leading lady, I should make the entire production of 'From Hell Came a Lady' a local affair. Fortunately, Mae Busch, whom I believe better fitted for the role than any other actress, is a resident of Hollywood and makes possible my ideal of producing this play as an entirely local production."

So much for an ideal.

The character played by Mae Busch in "From Hell Came a Lady" is that of a little crowd-catcher for a cop on a San Francisco amusement pier.

ZOEHLNER QUARTET  
PLEASES PATRONS

An interesting program of chamber music was that presented last night in the Hillmore Ballroom by the Zoellner Quartet as the last concert of their 1927-1928 season.

The quartet, composed of Antoinette Zoellner, violin; Amanda Zoellner, viola; and Joseph Zoellner, Jr., violoncello, chose as their opening number Romantic Serenade, Op. 25, by Braille-Buys.

Moose Officers  
Attend Chinese

Officials and members of the Moose in Los Angeles in numbers are planning to attend performances of Charlie Chaplin's "The Circus" at Grauman's Chinese Theater before it closes its engagement, the 29th inst., in compliment to Chaplin, who has consented to act as master of ceremonies at their springtime jubilee and ball to be staged in the Ambassador Auditorium the night of the 28th inst.

Invitation from James J. Davis, Secretary of Labor at Washington and Supreme Dictator of the order, to officials at the Moose function was accepted by Chaplin, and members of the organization are making reservations at the Chinese to re-people the honor.

STAR IMPROVES STEADILY

May McAvoy has fully regained her strength weakened by a recent minor operation, according to word from the Warner Brothers star received by her mother, Miss McAvoy had been recuperating in Palm Springs for the past week and expects to return to the studio within the next few days.

# Junior Olympics Champion Displays His Wares for Screen Athlete

While a Committee of More or Less Important People Cooled Heels at United Artists Studio yesterday, Doug Fairbanks and Tony Galasso, 1927 Junior Olympics champion, staged a two-man meet in Doug's private athletic field. In this photo Doug and Tony are shown competing in a "chinning" contest (not verbal) during the visit.

"For a Boy of Fifteen Years You Have a Remarkable Physique," Doug is here telling Tony, and Harry Cooper (left) golfer of note, seconded the motion. Tony is not eligible for competition in this year's Junior Olympics, but he is doing his bit by appearing in demonstrations at local schools and boosting the good cause along.

Shocks Her Subjects—Because Queen Sourya appeared unveiled during European tour, her subjects in Afghanistan threaten revolt. (P. & A. photo.)

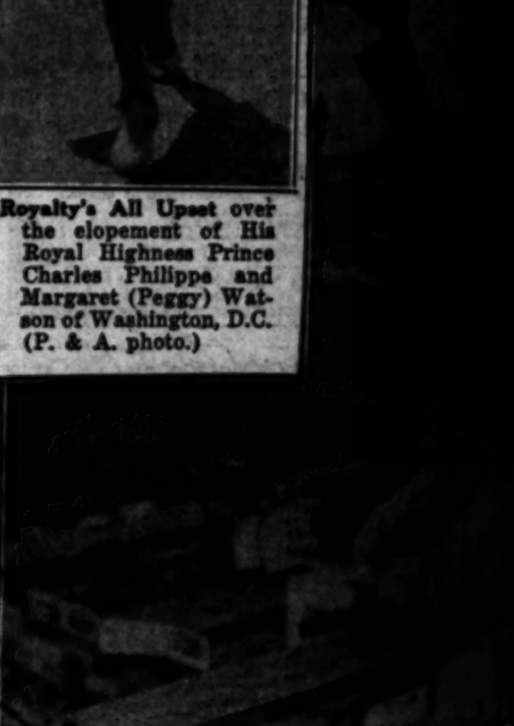

New York's Big Playboy Goes to Work—It's Mayor Jimmy Walker, back from a Florida vacation, dipping into the mass of work that awaited him, while his two secretaries stand by to give a hand. His official duties are necessary evil in Jimmy's life. (P. & A. photo.)

Plenty of Action took place during Tony's visit to the studio, Doug refusing to accept passively the sports axiom "Youth must be served." In this photo the motion-picture star is giving Tony a demonstration in plain vaulting, a bit of action which has a place in most of Doug's screen productions.

Royalty's All Upset over the elopement of His Royal Highness Prince Charles Philipps and Margaret (Peggy) Watson of Washington, D.C. (P. & A. photo.)

Head Stand is Simple Acrobatic Feat, but when performed on a 12-inch plank extending over a foot abyss, it is something else. Sig Smith, professional daredevil, is here shown performing the feat at the Ferry Building in San Francisco. (P. & A. photo.)

A.W.O.L. From Legion, Fritz Sturtz, a German, arrived recently at Aberdeen, Scotland, a stowaway. He deserted from the French Foreign Legion at Suise, North Africa. (P. & A. photo.)

Landing at North Pole will be made by Gen. Nobile, noted Italian aeronaut, if luck favors him in Arctic flight to be made this summer in newly built dirigible Italia. (P. & A. photo.)

Quarter of Million Dollars' Worth of Liquors Was Confiscated a few days ago by Coast Guard with the seizure in the Hudson River of the three-masted schooner W. E. Litchfield. The cargo of the innocent appearing vessel consisted of a dummy consignment of lath and 36,000 bottles of Scotch, rye and assorted liquors. Part of cargo above. (P. & A. photo.)

Toothache is Not Exclusively Human Ailment; most domesticated animals are subject to it. Chug, the two-year-old police dog pictured above with Dr. Victor Speevack, Brooklyn veterinary surgeon, boasts a "canine" tooth filled with silver. (A. P. photo.)

## OUR HISTORY IN PICTURES 993 The Story of Our War With Spain. The Battle of Manila Bay—Part II.

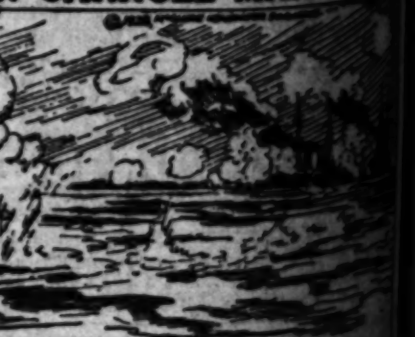

THROUGH A HOT BUT UNEXPECTED FIRE FROM THE SHORE, COMMODORE GOWEY LED HIS SQUADRON TOWARD THE SPANISH FLEET AND PORTS AT CAVITE AS COOLLY AS IF FOR TARGET PRACTICE. WHEN THE FLAGSHIP "OLYMPIA" CAME WITHIN EASY RANGE OF THE ENEMY, GOWEY TURNED TO HER CAPTAIN AND SAID, "YOU MAY FIRE WHEN READY, GENTLEMAN."

AT THE SIGNAL TO COMMENCE FIRING, A ROAR WENT UP FROM THE AMERICAN TARS. "REMEMBER THE MAINE!" THEN OUR WARSHIPS BEGAN A TERRIFIC BOMBARDMENT. THEIR SHELLS ROCKED THE SPANISH VESSELS AND BURSTING IN THE GUN EMPLACEMENTS ASHORE WITH DEADLY EFFECT.

THE "OLYMPIA" SWUNG AROUND, PRESENTING HER PORT SIDE TO THE ENEMY, AND, FOLLOWED BY ALL THE SHIPS IN SINGLE FILE, STEAMED PAST CAVITE, EMPTYING ALL THE GUNS ON THAT SIDE. THEN, TURNING, THE SQUADRON REPAIRED THE PORTS, THIS TIME USING ALL THE STARBOARD GUNS.

SEVERAL TIMES THIS MANEUVER WAS REPEATED. THEN ADMIRAL MONTEAZO, THE SPANISH FLEET LEADER, CAME OUT BLOWING AROUND THE FLAGSHIP, THE "REINA CRISTINA," TO ENGAGE THE "OLYMPIA." AFTER A BRIEF DUEL, THE SPANISH SHIP RAN FOR THE SHORE, SINKING AND BURNING YONKERS—THE BATTLE OF MANILA BAY.

## FOUNDERS' DAY TO BE MARKED

California Christian School Anniversary Near  
Youngest Institution of Sect Flourishing  
Movement Campaign Will Be Started in Fall

Founders' day will be observed by Christian College in a memorial auditorium on the campus tomorrow morning with a program starting at 10 o'clock. President Charles G. Chace, chairman of the board of trustees will preside, while President Arthur Braden will give the address of the day. The mission of Christian College is to "train men for the Christian Church." The program includes Dr. H. C. Griffin, pastor of the Westminster Christian Church, and A. V. Jones, chairman of the board of trustees of the Christian Church. The program will be furnished by the Christian Church, and the address of the day will be given by Dr. H. C. Griffin, pastor of the Westminster Christian Church, and A. V. Jones, chairman of the board of trustees of the Christian Church.

PROGRAM OF DAY  
11:30 o'clock the Southern Christian ministry will convene in the auditorium, under the direction of President Charles G. Chace. The program of this meeting will be "Founders' Preparation," and address will be given by Dr. H. C. Griffin, pastor of the Westminster Christian Church, and A. V. Jones, chairman of the board of trustees of the Christian Church. The program will be furnished by the Christian Church, and the address of the day will be given by Dr. H. C. Griffin, pastor of the Westminster Christian Church, and A. V. Jones, chairman of the board of trustees of the Christian Church.

Youngest College  
California Christian College, founded in 1888, is the youngest of the Southern Christian ministry. It is the youngest of the Southern Christian ministry, and is the youngest of the Southern Christian ministry. It is the youngest of the Southern Christian ministry, and is the youngest of the Southern Christian ministry. It is the youngest of the Southern Christian ministry, and is the youngest of the Southern Christian ministry.

ACTRESS' PET WILL BE STAR

**Dog Chosen for Leading Film Role**  
Gwen Lee and Pekinese  
Gwen Lee, 1928 Wampus baby star, has a pet. The pet is her Pekinese pup, 6 months of age. Yesterday she took the dog to work with her. At the studio Eddie Rutherford, director, saw it. As a result the Pekinese was named Baby Cyclone and will be the dog used in the film of George M. Cohan's stage hit.

**WOMAN VICTIM OF AUTO IN HOSPITAL**  
Mrs. Lena Wright, 72 years of age, of 803 North Lafayette Park Place, run down by an automobile at Sunset Boulevard and Lafayette Park Place last night, is in General Hospital suffering with a possible fracture of the skull and cerebral concussion. According to police, the car was being driven by Jack Cannon of 1225 Harvard street, Santa Monica, who is not held.

**CANAL OWNERSHIP**  
Strictly speaking, the United States does not really own the land through which the Panama Canal is built. Our tenure is that of a "perpetual lease." Our government, for instance, could not transfer its rights to another nation without Panama's consent. By the treaty of 1903 Panama granted to the United States "in perpetuity the use, occupation and control of a zone of land ten miles in width for the construction, maintenance and operation of a canal. Panama further granted to the United States "all the rights, power and authority within the zone" which "the United States would possess and exercise if it were the sovereign of the territory, to the entire exclusion of the exercise by the Republic of Panama of any such sovereign rights, power or authority." As the price of compensation for the rights, powers and privileges granted the United States agreed to pay Panama the sum of \$10,000,000 in gold coin and also an annual payment during the life of the treaty of \$250,000 in gold coin, beginning nine years after the ratification of the treaty.—(Pathfinder)

**UNIVERSITY FOR THE ILL**  
An international university in the Swiss Alps is being urged to aid students who are trying to complete their education while they fight tuberculosis. There are said to be in Europe 15,000 of these tuberculous students, who are attending school in unfavorable climates. A university sanatorium for Swiss student-patients has been in existence for five years at Leysin. A committee of international student associations has devised a plan to turn this university into an international institution at Davos. The proposed Alpine university would be financed by contributions from the governments whose pupils would benefit by the project.

DOUG AND TONY PLAY TOGETHER

**Junior Olympic Champion Attains Heart's Desire**  
Actor Forgets Engagements to Entertain Youth  
Tour of Schools Taken Up By Southland Lad  
(Illustration on Picture Page)  
Tony Thompson, Junior Olympic Games champion for 1927, was welcomed to Los Angeles yesterday by Douglas Fairbanks, member of the advisory board of the Junior Olympic Games.  
With the formalities of introduction over, Tony donned his track suit and went through the five Junior Olympic events on the Fairbanks private track. Although Mr. Fairbanks was expected to preside at an important meeting and scores of visitors sat waiting to see the famous star he was so impressed with the form and physique of the 15-year-old champion that he forgot his engagements and the fact that he was dressed in a business suit, and started to show Tony things.  
**PAIR IN COMPETITION**  
Doug and Tony clinched the bar together. Doug called in Chuck Lewis, who will compete at Amsterdam this year, and Harry Cooper, golf champion, and the Fairbanks studio was turned into an athletic playground. While Tony is ineligible to compete in the Junior Olympic Games this year, he will assist the executive committee in teaching boys of Southern California form and accuracy in the five events in which they must compete and when he completed his exhibition with Mr. Fairbanks a rounded-out appreciation demonstration was arranged for.  
"For a boy of 15 your physique is remarkable," said Mr. Fairbanks in urging Tony to continue training for the senior Olympic Games, to be held in Los Angeles in 1932. "With your build and the spirit to win there are no records you can't have, provided you go after them," said Doug. Tony later was the guest of honor at a luncheon meeting of the Southern California Olympic Games committee.  
**TALKS AT SCHOOLS**  
Accompanied by Ted Burns, his trainer, Boyd Comstock, director and Bill Henry of the executive committee of the Junior Olympic Games, Tony left the Fairbanks studio for the Santa Monica High School, where he will be welcomed by him. The Junior Olympic champion gave exhibitions of muscle development and Olympic Games events at the Long Beach High School and the Woodrow Wilson High School between 3 and 4 p.m. yesterday.  
Last night the Junior Olympic champion was the guest of honor at a banquet of the Long Beach Junior Olympic Games advisory board at the Pines Club.  
In introducing Tony, Bill Henry, representing the executive committee of the Junior Olympic Games, said:  
**BILL HENRY'S VIEWS**  
"It is sometimes asked 'how far does the Junior Olympic Games program reach in its moral and spiritual side of the work of rehabilitation of youth?'  
"No better example of the value of organized athletics can be shown than in the case of Tony Calasone. Here is a boy who is a product of the playgrounds of Southern California; a boy who smoked and whose temperament was out of tune with environments sought after by civic leaders interested in boy at the age of 13 years had a mental and physical machine that was running wild, with no hold on the throttle and no control.  
"It was at this stage that Tony became interested in the Junior Olympic program. He entered the preliminary trials, qualified and won the finals. Smoking was dropped, his entire mental process was changed. His moral self asserted, the boy from the Southland went east and won the national championship against boys from all parts of the United States. Tony is at the head of his class in the junior high school and is devoting his time to teaching the boys the value of athletics in shaping themselves into better men of the future."  
**BUSY WEEK AHEAD**  
The Junior Olympic champion is going to have a busy week in Los Angeles. He will appear at as many playgrounds and juvenile organizations as possible.  
The following playground meets in Los Angeles will be visited by Tony today in the big white Junior Olympic car which is placed at the disposal of the City Playground Department by the executive committee of the Junior Olympic Games:  
**TOMORROW**  
Wall-street Playground ..... 10:30 a.m.  
Dorsey Playground ..... 11:30 a.m.  
Poinsettia Playground ..... 2:30 p.m.  
Vineyard Playground ..... 4:15 p.m.  
**WEDNESDAY**  
Broadway Playground ..... 9:30 a.m.  
Shannon Playground ..... 11:30 a.m.  
Mendocino Playground ..... 2:30 p.m.

**During the past year the Catholic Daughters of America have donated more than \$1,000,000 to various charities.**

**HICKMAN AGREEMENT FILED**  
**Oral Argument on Appeal Abandoned and Date for Briefs Presentation Will Be Set Today**  
Oral argument on the appeal of William Edward Hickman from the death sentence for the slaying of Marion Parker, scheduled to be heard by the State Supreme Court in San Francisco today, was taken off the calendar yesterday.  
Stipulations by prosecution and defense attorneys filed last week waiving the oral phase of the case and allowing it to rest on written briefs reached the clerk of the State court yesterday. The stipulation was signed by Attorneys Cantillon and Sievers for Hickman and John W. Maltman, deputy Attorney-General, who will represent the State during the consideration of the appeal.  
Dep. Dist. Atty. Becker and Defense Attorneys Cantillon and Sievers expect to appear before the State Supreme Court today and

**LEOPARDS "OUT" AS STUDIO QUESTS**  
William C. Thompson  
"While I have had narrow escapes in both cases I would rather turn my camera on wild animals than on savages," said William C. Thompson at the Ambassador yesterday. Thompson is a pioneer cinematography operation with eight years of service in motion pictures.  
Recently in shooting a jungle picture, lions decamped to a hut in which the camera was located broke down the screen door.  
"There were six men in the hut and all I remember is that when the door crashed I stumbled over one lion and landed astride another lion and was carried eighteen feet on my back before I fell off," laughed Thompson.  
"When the rear wall of the hut had been cut away with axes they found me hanging by a wire in the southwest corner of the roof. Just how I got there I do not know, but that is the closest I have come to 'going west,'" he added.  
"Another time we were reeling in a camera cage which had no top on it. Two leopards came to blows, one showed the white feather and pursued by the other came over the top of the cage and proceeded to finish their altercation in a tangle of tripods. I went out the way they came in."  
Thompson in 1909 began as a camera man with P. W. Hochstetler, the first man to make super-stillized films, and first to take pictures from an airplane.  
**KITCHENER'S MISTAKES**  
"The long sweeps of the North Atlantic have washed out the shortcomings of Lord Kitchener and today he is one of the few figures associated with the World War who retain anything like a legendary reputation," writes H. A. De Waele of Michigan State College in an article criticizing Kitchener's war record in Current History Magazine.  
The Dardanelles expedition can properly be looked upon both as a crisis in Kitchener's life and in the World War, as he led every German worth talking about—know that the war was won for the Allies the moment that the fleet supported by an army swept into the straits of Gallipoli.  
It was Kitchener's unhappy fate to direct without adequate support from staff experts so complicated an operation and at the same time be torn between calls from France and the Dardanelles for troops and supplies which were necessary in both theaters. If he shown courage enough to present the French general staff and the western front enthusiasts at St. Omer with a plain statement, in view of the Dardanelles operations, no offensive could be undertaken in the West, he would have marched to victory by way of Constantinople. As it was, the shows nearest home received most of the support; they failed; they were bound by the Dardanelles sound operations at the Dardanelles were allowed to die of slow starvation."  
**Revolving Wings on Airplane**  
Some considerable degree of success is said to have been attained by a "Autogiro" which has been recently put to the test abroad, designed and flown by Don Juan de la Cierca. An ordinary horizontal thrust propeller pulls the vehicle along and, as the name is intended to imply, the resulting movement of air automatically causes the wings to rotate. Each surface or blade is secured to its axis by a sort of universal joint arranged so that a maximum amount of lift is obtained while each blade is moving forward, and a minimum amount of drag results while it is retiring. It can be landed at a speed of twenty-seven miles per hour. Cruising speed, however, is about seventy-five miles. A speed of ninety is attainable. The advantage of the low landing speed is that a large area for landing is not required.

### MORE CHARGES FACE STILWELL

Bakersfield Treasurer  
On Ten New Counts

Indictments Fix \$30,000  
Total Bail Demand

Theft of \$15,000 From  
Previously Charged

BAKERSFIELD, April 2.—W. Stilwell, former City Treasurer of Bakersfield, was indicted on ten new counts of felony today by the grand jury, which had already indicted him on two counts.

The counts charge misappropriation of public money, grand theft and making false accounts, and making false entries in his books while treasurer of the city.

Bail was set at \$30,000 which, according to the first indictment, makes the total \$30,000.

The grand jury was called in special session today by Judge A. W. Marion, and after a session and examination of the evidence, returned the indictments.

Stilwell, who was at liberty under the \$10,000 bail of the first two indictments, was reported recaptured by the sheriff.

The ten additional indictments were returned by the grand jury after a session on July 2, 1928, when he was indicted on two counts.

No. 1. Unlawfully, feloniously and fraudulently appropriating \$15,000 of public money.

No. 2. Keeping a false account and making a false entry in a book.

No. 3. Misappropriation of public money on July 2, 1928, amounting to \$249.50.

No. 4. False account on Jan. 1, 1928.

No. 5. Grand theft of \$15,000 on January 21, 1928.

No. 6. Misappropriation of public money on January 21, 1928.

No. 7. Grand theft through misappropriation of \$100.

No. 8. Keeping a false account January 21, 1928.

No. 9. Keeping a false account.

No. 10. Keeping a false account.

These are the allegations of the indictment, which specifies that Counts six and seven are derivative of the same transaction.

The first indictment, returned by the grand jury, charged that Stilwell had misappropriated the public money of the city to the amount of \$15,000.

**Skeleton Found  
on Desert Land  
Near El Centro**

### JAZZ AGE RUNS TO BIZARRE IN PETS ALSO

Have you a little beastie in your home? That is, other than a dog or a cat?

They are not in the mode as far as household pets are concerned.

Dealers in pets here say that there is, of late, a pronounced trend toward the unusual in animals, or more properly creatures for domestic use outside the kitchen.

People craving living companionship other than their relatives and the snore who calls for the installations on the radio set are no longer contented with the pets that have been standard for years.

The goldfish, it appears, is not vivacious enough for modern people; the canary's warbling is not jaunty enough to drive away boredom, and the parrot has ceased to be the chief attraction of the apartment of the single woman.

Guinea pigs are popular with youngsters, but their antipathy to birth control makes them some too popular with householders.

Gay-colored birds of the parrot type, such as the cockatoo and the macaw, are replacing the parrot in ultra modern apartments where color is the objective. Monkeys, varying in size from types that can be carried in a handbag to the large ones that have an uncanny resemblance to some or other young man, are a steady market in spite of their untidy habits and destructive tendencies.

One well-known cinema actress has a pet young leopard. Still another received

against them in many places. Therefore, both men and women are turning to quieter and more unusual pets.

Baby alligators find a quick sale in spite of the fact that they are inclined to be temperamental at about the time their voices change. Turtles, imported from Japan, replace the goldfish in many a crystal clear bowl.

White mice and white rats are common adjuncts to the modern home, usually over the bitter protests of the feminine portion of the family who can never get over their abhorrence for the "nasty things."

BELOVED OF STORE

### WINDMILL INDUSTRY LAGS

The manufacture of windmills in this country has shown a decided falling off and it is rather rare to encounter one of these constructions except in remote localities.

In the populous portions of the country they are sometimes maintained for sentimental and picturesque reasons only. The windmills that are made in this country are shipped principally to Argentina, Canada and South Africa.

In Europe, Germany is the largest present-day maker and user of windmills, and is doing an increasing export business in this line. Wind-driven electric generators are now being made in Germany, equipped with storage batteries for supplying current for short periods for running various machines. Germany is now trying out the principle of the rotor ship on the farm, and a rotor tower on an estate near Berlin is used in place of the old windmill water pump. Holland, the country with which the windmill has always been associated, is gradually discarding this method of power production and turning to the modern electric power pump.

WEAKER SEX  
A man has less courage than a woman. Try to imagine one with 17 cents in his pocket trying on seven suits of clothes.—Detroit Free Press.

POULTRY STILL GUESSING  
One of the visiting educators handed us this clipping from an Indiana paper:

"Superintendent Alman is said to have under consideration the employment of several teachers before the roster of the city teaching staff is announced."—Boston Transcript.

HOW FAST THEY GROW  
Mothers who are appalled at the headlong speed with which children seem to grow out of their clothes can be thankful that little boys do not sprout up as fast as rabbits, cows and guinea pigs.

Charles Compton, a grower of children with that of farmyard animals have been worked out by Dr. Samuel Brody, of the Missouri agricultural experiment station. Reporting his results in Science, Dr. Brody shows that a child between 4 and 14 years grows at the rate of only 10 per cent a year, whereas young farm animals grow at the rate of only 1000 per cent a year.

Reduced to dust, this means that in less than four days the young animal gains as much as the child gains in a year. Children who have not grown fast between 4 and 12 years often shoot up rapidly between 12 and 18. Children who have grown more rapidly in earlier childhood do not seem to have this acceleration in their teens.

## WILL SAVE YOU MONEY

Now you may be freed of washday bother and expenses . . . no washing machine to figure depreciation and repair on . . . no laundry to pay, get lunch for, and clean up after . . . no soap, water, gas or power to pay for. You could not possibly do the same work at home for less than \$1.00 . . . and the White Knight at Delight will do 12 pounds of Dry Wash for 50 cents, additional pounds for only 4 cents, called for and delivered.

Nothing starched or ironed. Everything beautifully washed and delightfully stiff-dried.

## Delight Laundry Inc.

5573 WOODLAWN AVENUE

## Direct-U Service

Tells where to buy any branded or trade-marked article. Quick, courteous, free service. Call up the LOS ANGELES TIMES and ask for Direct-U. MEtropolitan 0700.

**NOTICE OF SPECIAL MEETING  
OF STOCKHOLDERS OF  
LOS ANGELES-FIRST NATIONAL  
TRUST & SAVINGS BANK**

**NOTICE IS HEREBY GIVEN**  
that pursuant to call of the  
Board of Directors of LOS AN-  
GELES-FIRST NATIONAL TRUST  
& SAVINGS BANK, a Special  
Meeting of the stockholders of  
said bank will be held in the

banking records of said bank in the Van Nuys Building at the Southwest corner of Seventh and Spring streets, Los Angeles, California, on the 12th day of April, 1928, at 3:00 P. M. of said day, for the purpose of considering and acting upon a proposal to increase the capital stock of said bank from \$12,500,000, consisting of 500,000 shares of the par value of \$25 each, to \$13,750,000, consisting of 550,000 shares of the par value of \$25 each, a proposal to increase said bank's authorized capital stock and authorized shares of

and increased stock, a proposal to amend the Articles of Association of said bank by providing therein for a capital stock of \$11,750,000 divided into shares of \$25 each, and for the purpose of transacting such other business as may properly come before said meeting.

By order of the Board of Directors.

**JOHN P. BUREK,**  
Vice-President and Secretary.

NOTICE is hereby given that the next membership term of Smith & Green, Inc., will be held at the office of the company, 1100 North Michigan Avenue, Chicago, Illinois, on Monday, June 1, 1936, at 10 o'clock a. m.
